

OilN2®

Patented

From the manufacturer
of Seal'N'Dry®

*Replaces
breather vent cap,
filter / dryer. Stops
ingression of H₂O,
O₂ & particles.*

- Oil blanketed in nitrogen - stops oxidation.
- Bladder accommodates system displacement.
- Heat pipe forms cool spot that attracts H₂O.
- Desiccant / oxygen absorber cartridge.
- Stops frequent oil & filter changes - saves O&M.
- Hydraulic oil reservoir or gear box.
